Proposed Hearing Draft
Rules Clearinghouse No. ____

November 30, 2016

**PROPOSED ORDER
OF THE WISCONSIN DEPARTMENT OF AGRICULTURE,
TRADE AND CONSUMER PROTECTION
ADOPTING RULES**

The Wisconsin department of agriculture, trade and consumer protection hereby proposes the following rule *to repeal and recreate* ATCP 74 *relating to* agent status for local health departments to license, investigate, and inspect retail food, vending, lodging, and recreational establishments and ensure public health.

**Analysis Prepared by the Department
of Agriculture, Trade and Consumer Protection**

This rule repeals and recreates chapter ATCP 74 (Retail Food Establishments; Local Government Regulation) as “Local Agents and Regulation.”

Statutes Interpreted

Statutes Interpreted: ss. 97.41, Stats., “Retail food: agent status for local health departments,” 97.615, Stats., “Agent status for local health departments,” and 97.625, Stats., “Powers of the department and local health departments.”

Statutory Authority

Statutory Authority: ss. 93.07 (1), 97.41 (2) and (5), and 97.615 (2) (b) and (e), Stats.

Explanation of Statutory Authority

The Department of Agriculture, Trade and Consumer Protection (“department”) has broad general authority, under s. 93.07 (1), Stats., to adopt rules to implement programs under its jurisdiction. The department has specific authority, under ss. 97.41 (2) and (5) and 97.615 (2) (b) and (e), Stats., to promulgate rules to establish standards and fees for local health departments granted agent status to license, investigate, and inspect the operations of retail food, lodging, and recreational establishments within a designated jurisdiction.

Related Statutes and Rules

Wisconsin's retail food establishments, vending, lodging, and recreational establishments (including pools and water attractions, recreational and educational camps, and campgrounds) are governed by ch. 97, Stats. Section 97.30, Stats., "Retail food establishments," contains requirements related to retail food establishment, including restaurants, for licensing, fees, and inspection. Subchapter III, ch. 97, Stats., "LODGING AND VENDING MACHINES," contains requirements related to these establishments for licensing, fees, and inspection. Finally, Subchapter IV, ch. 97, Stats., "RECREATIONAL SANITATION," contains requirements, related to recreational establishments, for licensing, fees, and inspection.

Plain Language Analysis

On July 1, 2016, ch. DHS 192 and the section of ch. ATCP 75, dealing with agent programs, were combined into a new ch. ATCP 74, dealing with the relationship of the department's new Division of Food and Recreational Safety (DFRS) and its agent programs. Under the authority of an approved DHS scope statement, the new DFRS is now revising ch. ATCP 74.

The new rule standardizes language from ATCP 75 and DHS 192. It also standardizes, expands, and clarifies definitions of agent program terms. In doing so, it clarifies department expectations for persons hired by agent programs to hold, or be eligible to work toward holding, the Registered Sanitarian (RS) certification. The RS certification is the preferable credential to be held by agent-program sanitarians doing food inspections and the revised rule clarifies the department's expectations regarding inspection done by those sanitarians who have not yet earned the RS certification, as well as the staffing procedures to be followed by agent programs if certified RS staff leave the program.

The revised ATCP 74 also clarifies the department's expectations for agent-program inspection systems and databases, and spells out the terms to be covered by forthcoming department-agent contracts. It adds a mandatory expiration date, after which the contract may be renewed. The rule clarifies the expectations of the department for agent programs seeking to enter into a contractual relationship and the procedures to enter into that agreement, and it clarifies the procedures for either or both entities to end the contractual relationship. The rule also updates and clarifies the roles that both the department and the agent program shall play under the contractual relationship and the types of support, levels of training, and information that are to be shared by each of the partners in the contractual relationship.

This new rule clarifies the responsibilities of the agent programs to enforce the Wisconsin Food Code, to inform the department of their enforcement activities, and do such sampling as is required by the department. It also clarifies the financial responsibilities of the agent programs for that sampling. In addition, the new rule clarifies the responsibilities of the department to provide general and specialized training, and laboratory support for the agent programs.

ATCP 74 further clarifies statutory requirements, including reimbursements owed to the department, the payments for services the agent program may be required to make to the department, and the types of financial records that the agent program shall make available to the department upon request. In particular, it spells out the responsibility of agent programs to demonstrate that the fees charged by the local program are reasonable and used only for maintaining the local program.

Federal and Surrounding State Programs

Federal Programs – The Federal Food and Drug Administration ("FDA") lacks jurisdiction over retail food establishments. The department uses the FDA's model *Food Code* as the basis for its *Wisconsin*

Food Code (ATCP 75 Appendix) that spells out retail food establishment requirements, so the department expects its agent programs to enforce the same standards in the *Wisconsin Food Code*.

Surrounding State Programs – This chapter is specifically intended to clarify the relationship between the department’s DFRS and the local health departments that wish to act as agents of DFRS. The practices of surrounding states have little bearing on this relationship or the contract between a local health department and DFRS.

Minnesota currently has only seven local health department agent programs that perform retail food establishment inspections under the oversight of the Minnesota Department of Agriculture (MDA). All other food-related inspections are completed under the oversight of the Minnesota Department of Health (MDH). The agent programs have their own fee structure and issue their own licenses. The MDA has taken parts of the 2005 FDA model *Food Code* and incorporated them into their administrative rules. They require a Registered Environmental Health Sanitarian (REHS) certification for inspection staff or a degree-equivalent in order to perform food inspections. They also require new hires without the REHS to earn that credential within two years and to operate under the supervision of a credentialed inspector until they earn the credential. The MDH has similar requirements.

Iowa also has agent-program food inspectors regulating retail food establishments. The agent programs perform only retail food inspections, follow Iowa’s state rules, and must use Iowa’s inspection program. They must also use Iowa’s fee structure for licenses. An RS or REHS certification or supervision by a certified person for food inspections is not required, but Iowa is working toward meeting Standard 2 (Trained Regulatory Staff) in the FDA’s National Voluntary Program Standards. Iowa’s policies and program expectations may change as the Iowa program meets FDA’s retail food inspection regulatory standards.

Michigan allows local jurisdictions to perform only restaurant inspection. All other retail food establishment inspection is done by the state. Michigan does not require restaurant inspectors to hold an RS or an REHS credential, but does have state accreditation standards that are roughly similar, and require twenty Continuing Education Units (CEUs) of on-going education per year as well as the successful completion of an audit. The agent programs are allowed to issue licenses and set fees.

Illinois does not perform any retail food inspection on a state level. Local programs perform all the retail and restaurant inspection. They do not issue licenses locally, but are funded by a state grant, the Local Health Program Grant. The state requires a Licensed Health Professional certification, which is Illinois’ version of Wisconsin’s RS or the national REHS. This certification requires five CEUs per year. The state evaluates the local programs at the same rate Wisconsin does, and their program depends on passing an evaluation.

Data and Analytical Methodologies

This rule was developed using chs. DHS 192 and ATCP 75 and the department’s new contract with agent programs. Enquiries were also made to surrounding states in an effort to ascertain their requirements and practices for similar programs.

Effect on Small Business

This rule change is anticipated to have no impact on small business, as local agents were already handling licensing, investigations, and inspection for many of these businesses, when the programs were in two agencies, this department and the Department of Health Services.

(9) The agent shall not permit an employee to conduct an inspection in a situation in which the employee, a member of his or her family, or an organization, with which the employee is associated, has a financial interest or where the employee's relationship, with any person at the inspected facility, could cause the employee not to be able to conduct an objective, unbiased inspection.

(10) The agent program is solely responsible for all employment-related issues, involving the persons it employs in the program, and for the actions or omissions of the agent program's employees, except as otherwise provided by law.

(11) Upon the agent's request, the department will provide technical assistance and training to staff.

ATCP 74.10 Inspections. (1) Agent program sanitarians shall inspect all establishments covered in the agent contract for compliance with Wis. Stat. § 97.30 and Subchs. III and IV of ch. 97, Wis. Admin. Code chs. ATCP 72, 73, 75 and Appendix, 76, 78 and 79.

The agent shall prioritize and investigate complaints according to the procedures in this section and procedures adopted by the agent program under the contract with the department. The complaints shall be addressed in order of priority as follows:

(a) An allegation indicating a serious or imminent public health hazard is associated with a licensee or establishment under the agent program's jurisdiction.

(b) An allegation indicating a potential public health problem, that is neither a serious or imminent public health hazard, is associated with a licensee or establishment under the agent program's jurisdiction.

(2) Agent programs shall notify and consult with the department and other affected agencies having jurisdiction, as necessary, about complaints or foodborne or waterborne illnesses that may be of significant concern to those agencies. An agent program shall coordinate complaint investigations, as necessary, with other agencies having jurisdiction.

ATCP 74.14 Evaluation and training. (1) At least once each year, the agent program shall submit a self-assessment in a format determined by the department.

(2) Once the self-assessment is submitted, the department shall evaluate the agent's program, based upon a review of the following information in the self-assessment:

(c) The agent program's records and reports required under s. ATCP 74.20.

(3) At least once every three years, the department shall conduct an on-site evaluation of the agent's program.

(4) The department shall provide the agent program with the department's written findings, based on the review of the self-assessment or the on-site evaluation. The department may, as deemed necessary, increase the evaluation frequency.

(5) In response to the department's written findings, the agent shall submit to the department any required corrective action plan, detailing how the agent will meet contract requirements.

(6) The department, after receiving the corrective action plan, shall review it, make additional comments, and approve the corrective action plan when it is deemed acceptable by the department.

(7) If the agent fails to meet the conditions specified in the corrective action plan, the department shall:

(a) Notify the agent, in writing, of the deficiencies in meeting the corrective action plan, and place the agent contract in a conditional status, with a deadline set for the agent to meet the corrective action plan conditions.

(b) If deficiencies are corrected within the conditional time period, the contract is returned to active status.

(c) If deficiencies remain uncorrected after a conditional deadline has passed, the department shall notify the agent of its intent to terminate the contract and revoke agent status as provided under ATCP 74.26.

(8) Notwithstanding these provisions, the department may exercise its right to immediately suspend an agent program's contract, under s. ATCP 74.26(3), to protect public health or safety.

ATCP 74.16 Enforcement and Sampling. (1) The agent program shall take necessary actions to enforce the provisions of s. 97.30 and Subchs. III and IV of ch. 97, Stats., related administrative rules in chs. ATCP 70, 72, 73, 75, 75 Appendix, 76, 78, and 79, and any local ordinances or regulations adopted under ss. 97.41 (7) and 97.615 (2) (g), Stats., for facilities for which the agent program has been delegated authority under the contract between the department and the agent program.

(2) Enforcement actions may include license revocation, license suspension, fines or civil forfeitures, orders to close, temporary or final hold orders on equipment, food, processes or facilities, and the placement of conditions on licenses.

(3) The agent program shall promulgate or adopt an enforcement policy that is distributed to its inspection staff, and shall make it available to the department during evaluations and at other times if it is substantively changed or upon request.

(4) The agent program shall notify the department in writing within ten (10) days after taking any enforcement action against a facility involving license suspension, license revocation, or court or administrative actions.

(5) The agent program shall be responsible for costs incurred in enforcement actions taken in the local agent program's jurisdiction.

(6) The agent program shall take samples requested by the department.

(7) The agent program may conduct any requested sample analyses in a laboratory certified by the department under ch. ATCP 77 for those analyses. All costs associated with collecting and testing these samples shall be assumed by the agent program.

(8) The agent program shall share laboratory results with the department.

(9) Those agent programs that do not have the laboratory capability to perform required analyses or that do not choose to perform those analyses shall submit those samples to the department's bureau of laboratory services for analysis.

(a) The agent program shall assume the cost of collecting samples and shipping them to the department's laboratory.

(b) The department shall assume the cost of the laboratory analysis of those samples.

(10) If the department has notified an agent program of deficiencies by any licensee to comply with the enforcement provisions of this chapter or any other rules or statutes applicable under the contract, and that program does not act expeditiously or take effective action with the licensee, the department may act under ss. 97.12, and 97.65, Stats., to enforce compliance with this chapter.

(11) The agent, if requested by the department, shall conduct effectiveness checks after product recalls or other situations in which a license-holder must remove food from sale or service.

ATCP 74.18 Reimbursement and other payments for services. (1) Unless otherwise specified in the contract, a fiscal year is defined in ATCP 74.01(6).

(2) By September 30 of each year, the department shall reimburse agent programs for inspecting vending machines during the previous fiscal year under terms and conditions specified in the contract. The department shall, upon written request, provide any agent with information on how to request reimbursement.

(a) Fee reimbursements for the inspection of vending machines that have moved from one agent program's jurisdiction to another shall be credited to the agent program making the first inspection during the fiscal year.

(b) The reimbursement rate shall not exceed 20% of the state license fees the department sets by administrative rule for the types of facilities which the agent issues licenses. The calculation of the state fees is based on state license fees only, not pre-inspection and reinspection fees. The current reimbursement rate is set within these limits by the contract.

(3) By September 30 of each year, agent programs shall reimburse the department for each license issued by the agent program during the preceding fiscal year as a fee for training, support, and oversight costs.

(4) The department may increase the reimbursement rate up to a maximum rate of 20% by announcing the increase before the licensing year for which the change applies.

(5) Retail food and recreational establishment license fee reimbursement shall be:

(a) A fee equal to 10% of the applicable state license fee, regardless of the license fee actually charged by the local agent, if the local agent prepares and submits to the department, by September 30 of that year, an annual self-assessment as required by ss. 97.41 and 97.615, Stats.

(b) A fee equal to 20% of the applicable state license, regardless of the license fee actually charged by the local agent, if the local agent fails to submit the annual self-assessment in par. (a). to the department, by September 30 of that year. A fee payment under this paragraph does not exempt the agent from the duty to prepare and submit an annual self-assessment.

(6) If an agent program has contracted with the department under s. 97.41, Stats., and s. ATCP 74.06, for the department to collect fees and issue licenses, the agent program shall pay the department for the actual cost of providing these services.

ATCP 74.20 Reports and records. (1) An agent program shall retain complete and accurate records including, but not limited to, copies of all reports and inspections, follow-up inspections, sampling, and all orders, for at least three (3) years after completion, and longer if required by applicable statutes, rules, or local ordinances. These records shall also include accurate records of all licenses and license holders, license fee revenues, inspection charges, complaints, complaint investigations, and all program costs. These records also shall be retained for at least three years.

(2) The agent program shall accurately and completely document the cost of the agent's program that is administered under the contract with the department. The cost may include direct costs for licensing, inspection, complaint handling and investigation, enforcement, information management, reporting, and any other activities carried out within the limits of the contract with the department. The costs may also include documented indirect costs normally associated with the program. These costs may include staff, equipment, facilities, contract service, and other documented costs allocated to the program.

(3) The agent program shall provide upon the department's written request all information necessary to monitor the agent program's detailed costs and revenues as specified in s. ATCP 74.20 (2), agent program performance and activities, and the status of regulated facilities.

(4) The agent program shall submit to the department by the 10th of each month the following specific information:

(a) All new licensees under the contract within the preceding month.

(b) All changes in the license status of existing establishments during the previous month.

(c) All records except those specified in s. ATCP 74.16 (3), and paperwork associated with any actions taken under s. ATCP 74.16 (3), within the preceding month.

(5) By September 1 of each year, the agent program shall provide the department with a complete list of the names and addresses of persons licensed by the agent program during the previous fiscal year.

(6) The license and other program-related fees collected by an agent program may not exceed the reasonable costs incurred by the agent program for enforcing and administering the provisions of the contract.

ATCP 74.22 Licensing and standards. (1) The agent program shall issue licenses in its jurisdiction, in accordance with s. 97.30 and Subchs. III and IV of ch. 97, Stats., and shall ensure that no person in its jurisdiction, subject to regulation under those statutes, operates an establishment without a valid license except:

(a) Mobile retail food establishments, operating in more than one jurisdiction, shall be licensed by the department under s. 97.30 (2) (a), Stats.
